Subject: **Malone Service Co. Site - Texas City - cease Removal Action**

The Malone Service ESD was final on 02/05/16. The Remedial Program can now assume injection well operations responsibilities from the Removal Program. Warren Z. will be routing his recommendation to cease Removal operations, with that Remedial will send a letter [Attached] to the PRPs indicating that they can now assume injection responsibilities – with EPA oversight.

You wanted to see the PRP letter before I sent it out here it is attached.
